He is an awesome facilitator!

"Sam is an amazing facilitator. He keeps everyone engaged throughout the whole class. Also, he never really stressed one way to study or another. Sam told us different people's perspectives on studying and encouraged us to find out what works for us."

"My facilitator was excellent! He was very helpful, provided great guidance, as well as motivation. I couldn't have been happier with my facilitator, I thought he was really great."

Great facilitator for Mod 6! Was very motivating and passionate about making us learn and get better.

"Was great, made the time more interesting and has a great way of explaining things so they make sense."

"Our facilitator was very helpful, and we really got the feeling that he cared about how we were progressing. He provided us with helpful tips and coached us along the way. The information was very helpful and gave us confidence. Several real life examples were provided to explain how many of the concepts can be applied."
